What could go wrong?	What would cause it?	How could we prevent it from going wrong?	Whose responsibility is it?	Emergency plan
Personal Minor injury/illness: - bruises - cuts - tripping - food allergies - sprain - hit by a racket / shuttle - Dehydration -slipping	- Accident while playing - students/players misbehaving - tripping and falling down on courts & stairs - uneven surface potholes in the carpark - Not taking appropriate medical/precautions before travelling/ playing/ eating - Student not drinking enough fluids, drinking too much of a drink that has caffeine in it - spilled drinks on or near courts, leaking from the rain	- Students/players are aware of acceptable behavior - Ensure students/players take medication before game. - Courts kept in a safe condition - potholes are filled in or warning signs are up - Court lighting working and maintained - Ensure students have their own drinks and that they take them regularly. Water Fountain is next to the Proshop - tell a staff of water, get a towel or mop and mop it up	Students, Players, Teacher, Parents, Student, ABA Staff	- Treat injury where accident happened or move them to a more suitable location if possible. - Apply first aid as needed. First Aid kit is in the Pro Shop behind the counter. School to have own first aid kits. -Contact emergency services if needed. - Contact school or parents if necessary. - Prevent accident from happening again, eg wipe wet floor etc and report accident to Proshop - Sit patient down, ask how much they have drunken - Give am electrolyte drink (fruit juice diluted with water, sports drink). - Sip slowly to avoid vomiting - report it immediately and wipe the water

<p>Personal major injury:</p> <ul style="list-style-type: none"> - break - dislocation - head injury - heart attack - car accident 	<ul style="list-style-type: none"> - Accident while playing, - students/players misbehaving - falling down stairs - bleachers seating coming off - running to and from the carpark - keeping to the curb when walking up the driveway 	<ul style="list-style-type: none"> - Ensure students/players are wearing protective gear ie shoes - Courts kept in a safe condition - Court lighting working and maintained - ensure there is no running on the bleachers seating - make sure the pathway is clear and that there are no oncoming traffic 	<p>Students, Players, Teacher, Parents, Student, ABA Staff</p>	<ul style="list-style-type: none"> - Check ABC's (Air, Breathing, Circulation) - Break: Keep patient still, ensure blood flow is still going to end of limb. - Dislocation: do not relocate the bone, support, immobilize and give pain relief. - Head injury: If unconscious treat as a neck/spinal injury, place in recovery position. If conscious allow to rest, if drowsy allow them to sleep in recovery position but make sure to check vital signs every 15 mins. - Bleeding: Stop/ Restrict bleeding with firm wrap-around bandaging. - Heart attack: Ak Badminton has a Defibrillator attached to the wall overlooking the courts. Instructions are given by voice prompts from the machine. AK Badminton staff have also been trained to use this. - In all above hazards ring '111' and follow the relevant instructions above while waiting for ambulance. - Contact school/parents. - Prevent accident from happening again, eg wipe wet floor etc - Keep other students away from the patient and keep calm yourself. - Assign someone to be a support person and stay with patient - report to ABA Staff and ring 111
<p>Asthma Attack</p>	<ul style="list-style-type: none"> - Student/players didn't take inhaler or other circumstances cause an attack. 	<ul style="list-style-type: none"> - Ensure asthmatics take their inhalers 	<p>Students, Players, Teacher, Parents</p>	<ul style="list-style-type: none"> - Remove student/player from trigger. - Help patient use their inhaler. - Encourage to breathe slowly and deeply. Sit them forward, leaning on something with their elbows (if this is comfortable for them) Give small sips of fluid. - If the student's skin is pale/blue in the lips, hands or feet or if the use of inhaler doesn't help after 10 mins, can't walk, can't speak full sentences then seek medical help. Contact emergency services. - Contact school/parents - Keep other students away from the patient and keep calm yourself. - Assign someone to be a support person and stay with patient
