STEPS TO FOLLOW WHEN ASSESSING RISKS

1. Identify the risks (losses or damage) that could result from the activity
 - Physical injury
 - Social / psychological
 - Material (gear or equipment)
 - Programme interruption

2. List the factors that could lead to each risk/loss.
 - People
 - Equipment
 - Environment

3. Think of strategies that could reduce the chances of each factor leading to the risk/loss
 - Eliminate If possible
 - Isolate If can't eliminate
 - Minimise If can't isolate
 - Cancel If can't minimise

4. Make an emergency plan to manage each identified risk/loss. Devise strategies for each risk and an associated emergency plan.
 - Step by step management
 - Equipment/resources required

5. Continual monitoring of safety during the activity.
 - Assess new risks
 - Manage risks
 - Adapt plans

RISK ASSESSMENT FACTORS TO CONSIDER

People	Resources and Equipment	Environment
<ul style="list-style-type: none"> • Outside providers / instructors • Experience • Ratios • Medical • Physical size/shape • Fitness • Anxieties / Feelings • Motivation • Special needs Educational Language abilities Cultural abilities Behaviour Physical disability • Social and psychological factors • Dropping your guard • Unsafe act(s) by participants • Error(s) of judgement by teacher(s)/instructor(s) 	<ul style="list-style-type: none"> • Information Parents/Whanau • Plan • Food and Drink • Transport • Special Equipment Rope Canoe/Kayaks Maps/compass Cameras • Equipment, maintenance, quantity, quality. • Safety equipment 	<ul style="list-style-type: none"> • Weather • Terrain • Emergency services • Security • Animals/Insects • Road use • Traffic density • Fences • Human created environment
