

# **Health and Safety Policy**

## **SECONDARY SCHOOL ORIENTEERING SPRINT EVENT**

**To be held on February-March 2024**

**Lactic Turkey Events is committed to providing an enjoyable and safe environment to all participants at every event**

### **Lactic Turkey Events Responsibility:**

- Ensure all participants are aware of any significant hazards that they can be expected to encounter while taking part during the event. (refer Specific Hazard Identification and Event Hazard Management form)
- Have procedures in place that can be followed in the case of injury and illness (refer Emergency Procedures form)
- Have procedures in place that can be followed in the case of a participant becoming lost or missing (refer Search and Rescue form)
- Ensure that all Organisers and Helpers are aware of the above procedures

### **Participants responsibility:**

- Read all notices concerning the special hazards that may be associated with the event
- Obey all instructions and warnings
- Keep clear of any plant or equipment
- Keep clear of any unauthorised areas or buildings
- Avoid crossing fields or court where play is underway
- Ensure safe crossings of all roads
- Notify the organisers of any health problems. eg diabetes, asthma, angina etc

### **Landowners responsibility:**

Landowners are not responsible for the natural hazards and risks associated with the event and attendant activities.

## WESTPAC KIDS ADVENTURE RACE

### Specific Hazard Identification

**Venue:** Various      **Date:** February-March 2024

**Special Hazards at today's event** (see notes below to see how these risks are eliminate, isolate or minimize these hazards)

- **Buildings and equipment surrounding the event centre**
- **Traffic on all roads and carparks used**
- **Slippery surfaces on walkways and paths**
- **Uneven surface on the course**
- **Other site users – sports team, other students and staff, other competitors**

**Please note it is the participants responsibility to:**

- Read all notices concerning the special hazards that may be associated with the event
- Obey all instructions and warnings
- Not interfere with any plant or equipment
- Not enter any unauthorised areas or buildings
- Avoid crossing field or courts where play is underway
- Ensure safe crossing of all roads
- Notify the organisers of any health problems. eg diabetes, asthma, angina, hepatitis, angina, etc.
- Check in at Finish even if you do not complete the course.

**Landowners are not responsible for the natural hazards and risks associated with the event and attendant activities**

**Participation today is at participant's own risk.**

## **SECONDARY SCHOOLS ORIENTEERING SPRINT EVENT**

### **Emergency Procedures**

This form will be available from the event director at the event

**Date:** February-March 2024

**Event Director:** Shaun Collins (Lactic Turkey Events)

**Persons with first aid training:** a trained first aider will be on site

In the event of a competitor being injured the Event Director (in conjunction with the nominated first aid person) is to be in overall charge and is to ascertain the extent of injuries and location of injured person.

Minor injuries are to be treated with the first aid kit, which is available at the event centre.

For major injuries the injured person is to be kept warm but not moved until checked by a first aid qualified person, preferably a doctor. This person will decide the course of treatment.

#### **Injury**

In the event of an accident, the following actions will be taken:

- Ensure other people come to no harm
- Prevent further harm to the victim
- Assess, stabilise and treat the victim
- Manage the group (e.g. shelter, emotional needs)
- Communicate to external parties if necessary
- Arrange transport if necessary
- Debrief with other marshals, event director, independent person if appropriate
- Report the accident to the event director using the Accident Register Form

The order above may change with the situation and will be determined by the official on site.

Event Marshals will be directed to be aware of participants showing signs of distress or exhaustion and encourage them to cease participating if they assess they should not continue.

## SECONDARY SCHOOLS ORIENTEERING SPRINT EVENT

# Search and Rescue (SAR) Procedures

The course will be clearly marked and is on established tracks and this is a teams event with Team Shadows, so we don't envisage anyone getting lost. However these procedures will be used if necessary.

## The Search:

### **[A] When to start action:**

Consider: (not necessarily in this order)

- (a) Prevailing weather
  - cold - combination of any 2 leads to rapid onset of HYPOTHERMIA
  - wet
  - wind
  - hot - dehydration and/or sunstroke
- (b) Age of competitor
- (c) Fitness level of competitor
- (d) Experience of competitor
- (a) Any known/perceived medical condition
- (f) How long has the competitor been out
  - (i) beyond the course estimated winning time (EWT)
  - (ii) beyond course closure time
- (g) Clothing the competitor is wearing (parka, polypropylene/geothermals/woollen top, gloves, hat, etc.)
- (h) Is the competitor carrying a watch/whistle?
- (i) Daylight remaining
- (j) Check the person is actually missing (see section E)

### **[B] Organising helpers to carry out a sweep of the area**

- organised jointly by Controller and Course Planner

- (a) Narrow the search area by asking if anyone has seen the competitor while they were competing
- (b) Send a vehicle around the roads on the map and bordering the map
- (c) Contact search - reverse direction of course along likely corridor (approx. 100metres a wide if possible). Make lots of noise: call out name, then all listen.

Consider the competitor may:

- (i) Be injured
  - conscious - able to respond to voice/whistle
  - unconscious or dead - must be physically found so check bottoms of cliffs, streams etc.
- (ii) Have run off the map
- (iii) Have been distracted, then become disorientated
  - common with young children, and people on courses too difficult for their ability

### **[C] Who to Contact?**

- (a) Police - if initial search fails, a body is found, or insufficient manpower or daylight is left. It takes 2+ hours to get a Police search organised - may not be able to mount a full search until the next day.
- (b) Next of kin - if not at the event, they should be notified at the same time the Police are contacted.

### **[D] Police Queries:**

Event organisers and next of kin should be available for any queries

### **[E] Are you sure the person is lost?**

- (a) Have they reported in at the Finish
- (b) Is their car still at the event
- (c) Have other members of the team they are with seen the missing person
- (d) Have they uplifted their gear - from Start/Finish/car

### **[F] Event Director's Procedures:**

Providing the competitor is either still on the map or in close proximity to it there is:

- (a) A relatively 'small' area to cover
- (b) Usually easy terrain to move over

**Before the event** the Event Director will:

- (a) Note the grid references for the Carpark/Finish area in case the Police or Ambulance/Rescue helicopters are needed.
- (b) Know the location/availability of the nearest telephone - if using a mobile/cell phone, check out the reception before the event.
- (c) Ensure a course closure time is in the programme
- (d) Ensure adequate supplies of water are available on courses in hot weather
- (e) Ensure there is a First Aid kit at the event

**Competitors can help avoiding a search by:**

- (a) Always checking in at the Finish even if you do not complete your course.
- (b) Wear a watch and be aware of course closure time and abandon your course if over time
- (c) Wearing adequate clothing for the weather
- (d) Not panicking if you become lost
- (e) Ensuring proper use of medication (e.g. inhaler carried by asthmatics, angina pills, barley sugar-type lollies for diabetics etc.)
- (f) Having an adequate intake of liquid while competing
- (g) Not competing if feeling ill

## **The Rescue:**

Once the missing person is found the Search Controller must be informed immediately so they can:

- (a) Arrange evacuation of found person - if injured, a stretcher may have to be improvised. A person suffering from severe hypothermia must not be walked out.
- (b) Recall other search teams - If the person is dead, apart from attempting CPR, the body should be left where and how it was found and the Police notified.

## **Event Hazard Management Plan**

---

### **Hazard Management**

The responsibility is on the Event Organiser to identify and manage hazards and to ensure there is compliance with the requirements of the Health and Safety at Work Act 2015 (HSWA).

Identifying hazards is the responsibility of all staff, who are expected to actively participate in hazard identification. Event Organisers should consider the activity planned and identify all the risks and hazards which may arise to participants or other persons in the vicinity during the event.

If any new hazards are identified, staff will report these to the Event Director who will make a decision as to whether they need to be documented or managed for the immediate situation. While in the field, by necessity, decisions will be made in an ad hoc manner to manage hazards.

**Once the hazards have been identified, event organisers must consider the reasonable controls to be put in place to Eliminate, Isolate or Minimise the hazard.**

A run through of the course will be done prior to the start to ensure there are no hazards. If hazards are identified action will be taken to rectify where possible and include in race briefing notes so all participants are notified.

### **Key to following Hazard Management Plan**

- **E**liminate, **I**solate or **M**inimise are standard health and safety terms to describe how you are reducing or removing the hazard. Ideally you will eliminate (remove) the hazard. If you can't eliminate the hazard then you must isolate or minimise the hazard.
- Below is an estimated likelihood of the hazard occurring during the Event - 1 is low, 5 is high.
- If something does not apply not applicable (N/A) is stated.

## Event Hazard Management Plan

1. Participants – i.e. age/experience/suitability, accessibility needs, refreshments, lost children facilities, animals							
Risks (what could go wrong)	Hazards (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	1-5	Who is responsible	when	Event day ✓
Injury to participants	<p>While the event is a race, it is mainly a fun activity so aims to not be too serious. Saying that participants may risk injury through any of:</p> <ul style="list-style-type: none"> <li>• over exertion given their physical condition</li> <li>• tripping / falling</li> <li>• colliding with another entrant or a member of the public</li> <li>• slippery surfaces on walkways and paths</li> </ul>	<p>The risk will be managed by:</p> <ul style="list-style-type: none"> <li>• Prior to the event start, emphasising that the event is a fun participation based event that relies on looking after each other.               <ul style="list-style-type: none"> <li>○ Pre event contact with event entrants</li> <li>○ Pre-event briefing to all entrants</li> </ul> </li> <li>• Identifying environmental hazards on the event day and advising these at the event briefing. A pre-event course check will be done on the day.</li> </ul> <p>Should any issues occur, these will be managed by:</p> <ul style="list-style-type: none"> <li>• Providing all event marshals with the Event Manager’s contact phone number so that the First aid people can be contacted quickly.</li> </ul> <p>In the event of an accident, the following actions will be taken:</p> <ul style="list-style-type: none"> <li>• Ensure other people come to no harm</li> <li>• Prevent further harm to the victim</li> <li>• Assess, stabilise and treat the victim</li> <li>• Manage the group (e.g. shelter, emotional needs)</li> <li>• Communicate to external parties if necessary</li> <li>• Arrange transport if necessary</li> <li>• Debrief with other marshals, event director, independent person if appropriate</li> <li>• Report the accident to the Event Director and document on the Accident Register Form</li> </ul>	M	2	Event Organiser	Before Event Day Event Day	<input checked="" type="checkbox"/>

## Event Hazard Management Plan

2. Staff/Contractors/Volunteers – i.e. Briefings, responsibilities, refreshments, training							
Risks (what could go wrong)	Hazards (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	1-5	Who is responsible	when	Event day ✓
The event will use volunteer marshals to provide direction to the event participants to provide assistance where needed.	There is a risk that marshals will not understand their roles and/or the course.	The event marshals will be: <ul style="list-style-type: none"> <li>Briefed prior to the event (in writing and verbally)</li> </ul>	E	1	Event Organiser	Event Day	<input checked="" type="checkbox"/>

3. Electrical, Sound and Lighting - i.e. registered tradesman, isolation required, tripping hazards							
Risks (what could go wrong)	Hazards (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	1-5	Who is responsible	when	Event day ✓
A small generator is required for the inflatable finish gantry and computer equipment.  Mains electricity is required for the timing computer.  Free standing, battery operated speakers will be used.	Tripping on electrical wires or the generator	This is a quiet red Honda generator that can be placed close to the finish gantry and therefore not require any long dangerous cords to trip over. The generator will be coned off to prevent kids not seeing it.  The timing computer will be placed as close to the mains power supply as possible. Any cords will run separate to pedestrian traffic flow. All cords will be secured to prevent tripping. Cords will not run near water.  The speakers have their own stands. These will be coned off preventing access by participants.	M	1	Event Organiser	Event Day	<input type="checkbox"/>

## Event Hazard Management Plan

4. Waste Management - i.e. Toilet facilities, rubbish collection/removal, animal waste, recycling.							
Risks (what could go wrong)	Hazards (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	L5	Who is responsible	when	Event day ✓
The event requires the use of toilets	Participants not following hygiene procedures when toileting	The event organiser will notify participants of the available toilet and remind to use them appropriately and hygienically.	I	2	Event Organiser	Event Day	<input checked="" type="checkbox"/>

5. Set-up/Pack-down - i.e. What safety is in place while event site is a working site i.e. moving vehicles, first aid, forklift activity							
Risks (what could go wrong)	Hazards (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	L5	Who is responsible	when	Event day ✓
<p>Event Set-up and Pack Down is minimal. It will consist of:</p> <p><i>(Event Set Up)</i></p> <ul style="list-style-type: none"> <li>• Vehicle on site to unload gear:               <ul style="list-style-type: none"> <li>○ Portable tables</li> <li>○ Activity equipment</li> <li>○ PA system</li> </ul> </li> </ul> <p><i>(Event Pack Down)</i></p> <p>Event pack down will consist of:</p> <ul style="list-style-type: none"> <li>• Pack up of gear</li> <li>• Removal of the Event Organiser vehicle</li> </ul>	<p>Main hazard is the driving of the vehicles on site to the event start. This will be managed by:</p> <ul style="list-style-type: none"> <li>• Driving the vehicle at walking speed only (less than 5km per hour - enforced by having someone walk in front of the vehicle as it is moving)</li> <li>• Driving with hazard lights on.</li> </ul>	<p>This risk will be managed by:</p> <ul style="list-style-type: none"> <li>• Driving the vehicle at walking speed only (less than 5km per hour - enforced by having someone walk in front of the vehicle as it is moving)</li> <li>• Driving with hazard lights on.</li> </ul>	M	1	Event Organiser	Event Day	<input checked="" type="checkbox"/>

## Event Hazard Management Plan

6. Pedestrian Management & Parking - i.e. Traffic management plan, signage, marshals, route, pedestrian management.							
Risks (what could go wrong)	Hazard (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	1-5	Who is responsible	when	Event day ✓
<p>The event crosses internal school roads and may cross or access public roads. It does operate in a public area. Specific risks are:</p> <ul style="list-style-type: none"> <li>Members of the public not being aware that the event is on</li> <li>Competitors not following the intended course</li> <li>Competitors being injured on internal roads</li> </ul>	<ul style="list-style-type: none"> <li>The event is small in nature and on school grounds, so the public should not be affected by the event</li> <li>Competitors getting lost</li> <li>Competitors not following road safety procedures when arriving at the event</li> </ul>	<ul style="list-style-type: none"> <li>Marshals will be on course to support navigation of competitors in need</li> <li>Participants will be briefed with full disclosure of any risks and noting that roads are open and best practices for moving around the streets be observed.</li> </ul>	E	1	Event Organiser	<p>Before the Event (promotion, briefing)</p> <p>During the Event (marshals at key turns, fluoro vests)</p>	<input checked="" type="checkbox"/>

7. Vehicle Management - i.e. speed, access to site for emergency vehicles, pedestrian access.							
Risks (what could go wrong)	Hazards (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	1-5	Who is responsible	when	Event day ✓
<p>Main hazard is the driving of the vehicles on site. This will be managed by:</p> <ul style="list-style-type: none"> <li>Driving the event vehicle at walking speed only (less than 5km per hour - enforced by having someone walk in front of the vehicle as it is moving)</li> <li>Driving with hazard lights on.</li> <li>Crossing points for students on internal school roads</li> </ul>	<p>Main hazard is the driving of the vehicles on site to the event start. This will be managed by:</p> <ul style="list-style-type: none"> <li>Driving the vehicle at walking speed only (less than 5km per hour - enforced by having someone walk in front of the vehicle as it is moving)</li> <li>Driving with hazard lights on.</li> </ul>	<p>This risk will be managed by:</p> <ul style="list-style-type: none"> <li>Driving the vehicle at walking speed only (less than 5km per hour - enforced by having someone walk in front of the vehicle as it is moving)</li> <li>Driving with hazard lights on.</li> <li>Establishing crossing points for students on internal school roads.</li> <li>Closing part of Robertson Roundabout from 4:00-5:30pm for participants to start and finish</li> </ul>	E	1	Event Organiser	Event Day	<input checked="" type="checkbox"/>

## Event Hazard Management Plan

8. Crowd Control - i.e. Fencing/barricades, alcohol, protection of property.							
Risks (what could go wrong)	Hazards (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	1-5	Who is responsible	when	Event day ✓
Parents of the participated kids and other adults involved in the event will remain at the event HQ. Volunteers/marshals may run the course after the students are finished.	N/A	No special arrangements are required for crowd control other than minimising the risk of injury noted in section '1. Participants' above.					<input type="checkbox"/>

9. Accident & Health Emergencies - i.e. first aid, fire extinguishers, emergency contacts, reporting accidents							
Risks (what could go wrong)	Hazards (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	1-5	Who is responsible	when	Event day ✓
Injury to participants	<p>While the event is a race, it is mainly a fun activity for most. Saying that participants may risk injury through any of:</p> <ul style="list-style-type: none"> <li>over exertion given their physical condition</li> <li>tripping / falling</li> <li>colliding with another entrant or a member of the public</li> <li>slippery surfaces on walkways and paths</li> </ul>	<p>A qualified first aider and full first aid kit will be on site.</p> <p>The risk will be managed by:</p> <ul style="list-style-type: none"> <li>Pre event contact with event entrants</li> <li>Pre-event briefing to all entrants</li> <li>Identifying environmental hazards on the event day and advising these at the event briefing. A pre-event course check will be done on the day.</li> </ul> <p>Should any issues occur, these will be managed by:</p> <ul style="list-style-type: none"> <li>Providing all event marshals with the Event Director's contact phone number so that the First aid people can be contacted quickly.</li> </ul> <p>In the event of an accident, the following actions will be taken:</p> <ul style="list-style-type: none"> <li>Ensure other people come to no harm</li> <li>Prevent further harm to the victim</li> <li>Assess, stabilise and treat the victim</li> <li>Manage the group (e.g. shelter, emotional needs)</li> </ul>	M	1	Event Organiser (onsite)	Event Day	<input checked="" type="checkbox"/>

## Event Hazard Management Plan

	<ul style="list-style-type: none"> <li>Communicate to external parties if necessary</li> <li>Arrange transport if necessary</li> <li>Debrief with other marshals, event director, independent person if appropriate</li> </ul>						
--	--	--	--	--	--	--	--

### 10. Emergency Procedures - i.e. Bomb threat, fire, earthquake, hazardous substances

Risks (what could go wrong)	Hazards (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	1-5	Who is responsible	when	Event day ✓
There are no hazardous substances expected for this event.	<p>The risks associated with this event in terms of bomb threats, earthquakes, tsunami's etc. are no different to those that would be experienced by any public user of the environment. We would expect to use the same facilities available to the public for the management of these risks.</p> <p>The exception is that with this document, should an event occur the Event Organiser can be contacted by the Council regarding the occurrence of any of these events should they happen.</p>	Should an event occur the Event Organiser can be contacted by the Council regarding the occurrence of any of these events should they happen.	M	1	Council New Zealand Police Event Organiser	Event Day	<input checked="" type="checkbox"/>

### 11. Environmental Effects on People - i.e. Effect of wind/rain and UV protection, extreme weather conditions - cancellation/postponement strategy

Risks (what could go wrong)	Hazards (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	1-5	Who is responsible	When	Event day ✓
The event is held in the afternoon. There is a risk of extreme weather however the risk to entrants is low. Weather information is readily available online and at no point in the event are entrants at a location where shelter is not readily available.	Extreme weather conditions (heavy rain, strong winds)	We cannot control the weather. We will ask competitors to check the weather forecast on the day of the event and dress appropriately	M	2	Event entrant Event organiser	Event Day	<input checked="" type="checkbox"/>

## Event Hazard Management Plan

---

16. High Risk - i.e. Wind strength, pyrotechnics, <a href="#">work at height</a> , <a href="#">hazardous substances</a>							
Risks (what could go wrong)	Hazards (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	1-5	Who is responsible	when	Event day ✓
N/A. There are no high risk activities (pyrotechnics, structures, hazardous substances etc) planned for the event. It is a fun run of 3km only.							<input type="checkbox"/>

17. Miscellaneous - site specific hazards							
Risks (what could go wrong)	Hazards (what could cause it to go wrong)	Risk control (What is in place to prevent it going wrong?)	E,I,M	1-5	Who is responsible	when	Event day ✓
There are no further site specific hazards.			I	2	Event Organiser	Event Day	<input checked="" type="checkbox"/>

### Accident / Incident Reporting

Accidents and near misses that occur to a staff member or client will be recorded by the company.

Any accidents will be discussed with the directors, as well as with the people or witnesses involved where appropriate. They will be analysed and any learning implemented.

The goal is to have no incidents that cause harm to any people, equipment or the environment, and to have no near misses. Over the long term this goal is extremely unlikely to be fulfilled. The Company will measure success in its operation when there is “no more risk than in everyday life”.

In the case of Serious Harm, details of the accident shall be reported to the Department of Labour within the prescribed 24-hour period using the standard reporting format on the Department of Labour website. Any other requirements identified by the Department of Labour will be followed. The Company’s operational procedures and this Safety and Operations Plan will be reviewed after any accident resulting in serious harm.

## Missing Person Report Form

To be filled out by the Safety Manager, Operations Manager or their appointee. Place a pin on the map showing the last location the person was seen at. When the person is found, place the pin back on the map.

<b>Event</b>

## Accident Register - Notification of Accident or Serious Harm

For non-injury accident, complete questions 1, 2, 3, 9, 10, 11, 14 and 15 as applicable

**1 Particulars of employer, self-employed person or principal:** *(business name, postal address and telephone number)*

**2 The person reporting is:**

an employer  a principal  a self-employed person

**3 Location of place of work:**

*(shop, shed, unit nos., floor, building, street nos. and names, locality/suburb, or details of vehicle, ship or aircraft)*

**4 Personal data of injured person:**

Name

Residential address

Date of birth

Sex (M/F)

**5 Occupation or job title of injured person:**

*(employees and self-employed persons only)*

**6 The injured person is:**

an employee  a contractor (self-employed person)  
 self  other

**7 Period of employment of injured person:**

*(employees only)*

1<sup>st</sup> week  1<sup>st</sup> month  1-6 months  
 6 months-1 year  1-5 years  Over 5 years  
 non-employee

**8 Treatment of injury:**

None  First aid only

Doctor but no hospitalisation  Hospitalisation

**9 Time and date of accident/ serious harm:**

Time  am/pm

Date  Shift  Day  Afternoon  Night

Hours worked since arrival at work

*(employees and self-employed persons only)*

**10 Mechanism of accident/ serious harm:**

fall, trip or slip  hitting objects with part of the body  
 sound or pressure  being hit by moving objects  
 body stressing  heat, radiation or energy  
 biological factors  chemicals or other substances

mental stress

**11 Agency of accident/ serious harm:**

machinery or (mainly) fixed plant  
 mobile plant or transport  
 powered equipment, tool, or appliance  
 non-powered handtool, appliance, or equipment  
 chemical or chemical product  
 material or substance  
 environmental exposure (e.g. dust, gas)  
 animal, human or biological agency (other than bacteria or virus)  
 bacteria or virus

**12 Body part:**

head  neck  trunk  
 upper limb  lower limb  multiple locations  
 systemic internal organs

**13 Nature of injury or disease:**

fatal

*(specify all)*

fracture of spine  puncture wound  
 other fracture  poisoning or toxic effects  
 dislocation  multiple injuries  
 sprain or strain  damage to artificial aid  
 head injury  disease, nervous system  
 internal injury of trunk  disease, musculoskeletal system  
 amputation, including eye  disease, skin  
 open wound  disease, digestive system  
 superficial injury  disease, infectious or parasitic  
 bruising or crushing  disease, respiratory system  
 foreign body  disease, circulatory system  
 burns  tumour (malignant or benign)  
 nerves or spinal chord  mental disorder

**14 Where and how did the accident/serious harm happen?**

*(If not enough room attach separate sheet or sheets.)*

**15 If notification is from an employer:**

(a) Has an investigation been carried out?  yes  no  
(b) Was a significant hazard involved?  yes  no

Signature and date

Name and position  
*(capitals)*
